Hey Dan:

I agree. It looks good the way you have it. On the legend, where it denotes "video" location; that should read "underwater video and photo location".

If that can't fit, underwater could be shortened to u/w. Also, I shouldn't have asked that you keep N10W in as a video site, so please remove it. N-10 should remain in red on the east side as one of sampling stations.

Really looks good, Dan. Call me if any of my suggested edits are confusing.

Thanks.

Eric

Hi Eric, I had a change of heart about putting all labels on the right, because any lead-lines across the river would have looked like more transects. See what you think,

Hi Dan:

You around this afternoon?

If so, I'll stop by.

Thanks.

Eric

Subject: Dive/Video Locations

Hi Eric, Here's a draft of the locations you gave me. I should have asked what the highlighted points were, but on this map I am showing them in black; I also included the non-highlighted points in red. If those look like the correct locations, I'll add them to the 2010 & 2014 maps.
